DSP/BIOS Link 1.65 Software Manifest

Legend

Package Name	The name of the application or files
Version	Version of the application or files
License	Name of the license or licenses that apply to the Package.
Location	The directory name and path on the media (or in an archive) where the Package is located. The location is the top-level directory for the package and is relative to the base installation directory for the DSP/BIOS Link 1.65.
Delivered As	This field will either be "Source", "Binary", "Limited Source and Binary" or "Source and Binary" and is the form the content of the Package is delivered in. If the Package is delivered in an archive format, this field applies to the contents of the archive. "Limited Source and Binary" refers to a package that provides source code for only a subset of the binaries included.
Modified	This field will either be "Yes" or "No". A "Yes" means TI had made changes to the Package. A "No" means TI has not made any changes.
Obtained from[1]	This field specifies where TI obtained the Package from. It may be a URL to an Open Source site, a 3rd party company name or TI. If this field contains a link to an Open Source package, the date it was downloaded is also recorded.
